

How NTAF Fundraising Impacts Patients' Quality of Life

NTAF helps transplant and catastrophic injury patients afford critical but uninsured medical expenses through fundraising guidance, patient resources and support, as well as financial assistance. Celebrating 25 years of dedicated service, NTAF has helped patient, their families and communities nationwide raise more than \$57 million for critical medical care, otherwise unaffordable.

III. Quality of Life Ratings “Before” Contacting NTAF and “Now”

A Snapshot of Patient Responses

III. How would you describe the impact of NTAF on your life?

A Sampling of Patient Responses, July 2008

- “NTAF was always there when needed, answered questions immediately, and helped in any way they could.
- “Very helpful. I did not realize how much I would need financial support. There are so many hidden costs I did not know about before my transplant.”
- “I wouldn't have made it through the last year without the help of my NTAF fund. Having a fund has helped to ease the stress of the financial burden associated with having a disease that renders you incapable of earning an income.”
- “Having a non-profit fund raising avenue eases the financial management and ensures trust for people who donate to my cause. Thank you for providing the NTAF option.”
- “NTAF provided a comfort zone for me when friends, family and caring individuals wanted to donate money to see me through my transplant. When a friend decided to organize a fund raiser I was not comfortable with the idea that a check would be written out in my name. It was a way to reassure people that I was using the fund correctly.”
- “In one word: Excellent.”

IV. Conclusion
